Stone Fire Pit and Garden

This fascinating garden was formerly an acre of grass which evolved to provide several secluded outdoor living areas, including a sunny garden with stone fire pit, surrounded by shade trees and deep woods.

Urban Food Garden

This is a small urban vegetable, berry and flower garden sustained via composting, companion planting and a water catchment system with cistern and pump that allows irrigation with collected rainwater. There are raised beds for easier care and short, steep slope plantings to prevent erosion. The garden is an inspiration for the urban gardener.

Kaleidoscope Garden

This beautiful food producing garden has a variety of vegetables, flowers, fruit trees, berries and terraced landscapes. Enjoy the peaceful wandering paths through the garden and the happy retreat of colors and fragrances. Inspiration abounds in this special place.

Meandering Mediterranean Garden

This winding Mediterranean-style Garden is a labor of love and a grand example of an Italian-influenced informal garden. Its many elements display a variety of plants including perennials, flowers, vegetables, shade plants and flowing flower beds providing an array of colors for all seasons.
